INTRODUCTION & BUSINESS OVERVIEW

STRATEGIC POSITIONING B2B

WE ALL CONSUME AGRANA (PRODUCTS)

At the beginning there is always agriculture...

AGRANA refines agrarian raw materials...

AGRANA supplies the Big Names...

confectionery, beverage, fermentation industries, food retailers; paper, textile, pharmaceutical industries; feed industry; dairy, ice-cream, bakery industries and many more

We all consume AGRANA every day without noticing it...

AGRANA PRODUCTS IN DAILY LIFE AT A GLANCE

FRUIT

- Fruit juice concentrates customers are fruit juice and beverage bottlers and fillers
- Fruit preparations are special customized products for
 - the dairy industry,
 - the baked products industry,
 - the ice-cream industry.

STARCH

- AGRANA produces starch and special starch products
- Starch is a complex carbohydrate which is insoluble in water. Starch is used in food processing e.g. as thickener and for technical purposes e.g. in the paper manufacturing process
- Bioethanol is part of our starch business

SUGAR

Sugar is sold

- to consumers via the food trade and
- to manufacturers: e.g. soft drinks industry, confectionery industry, fermentation industry, other food and beverage industries

AGRANA PRODUCTS IN DAILY LIFE

REVENUE BY PRODUCT GROUP (2018|19)

FRUIT

€ 1,179.1 m

- Fruit preparations (dairy and non-dairy)
- Fruit juice concentrates
- Other juice core products (NFC, fruit wines, etc.)
- Fruit reselling, frozen fruits, etc.
- Other services

STARCH

€ 762.7 m

- Native and modified starches
- Saccharification products
- Alcohol and ethanol
- Other core products (dairy and instant products, long-life potato products, etc.)
- By-products (protein products, DDGS, etc.)
- Others (soy, dried beet pulp, etc.)

SUGAR

€ 501.2 m

- Sugar: Industrial customers
- Sugar: Resellers
- By-products (molasses, beet pulp, etc.)
- Others (products of INSTANTINA, seed, services, etc.)

2018|19 OVERVIEW

- Revenue: € 2,443.0 m (prior year: € 2,566.3 m)
- EBIT: € 66.6 m (prior year: € 190.6 m)
- EBIT margin: 2.7% (prior year: 7.4%)
- For the 2018 beet crop, new and extremely low sugar prices driven by export parity took effect
- Historic low sugar prices exerted direct downward price pressure on isoglucose in the Starch segment
- Considerably lower market prices for bioethanol
- Dividend proposal of € 1.00 per share

~9,200

Employees (FTEs)

Southeastern Europe

2018|19

SUSTAINABLE MANAGEMENT IS KEY

ENVIRONMENTAL DIMENSIONS

Climate warming and a deficit of precipitation is already having an impact on European agriculture and the processing industry, as the drought year 2018 has clearly shown

We are anticipating this:

- Intensifying the **research activities in the agricultural sector**, in view also of the legal limitation of crop protection products
- **Responsible use of agricultural resources** is highly important to AGRANA – raw materials are too valuable not to be utilised completely (new **refining of pulp** from **potato** processing, construction of a **betaine crystallisation** plant for the complete utilisation of sugar beet molasses)
- **AGRANA products themselves** make a substantial contribution to protecting the climate and the environment:
 - **Bioethanol** as an environmentally friendly component of blended petrol, produced in our biorefinery in Pischelsdorf, Austria, reduces emissions such as CO₂ and small dust particles
 - **Innovative AGENACOMP® bioplastic** helps reduce plastic waste; starch-based organic plastic compound is 100% home-compostable without leaving microplastic residues and can be used for a wide range of applications
 - As part of AGRANA's specialties strategy, **organics are an important cornerstone** of the product range that makes the Group the largest European B2B organic starch and sugar producer

58 PRODUCTION SITES WORLDWIDE

SEGMENTATION BY SEGMENT

FRUIT

28 fruit preparation plants and
15 fruit concentrate plants

- Countries with production sites
- Potential Growth Regions

STARCH

5 starch plants
(incl. 2 bioethanol plants)

- Countries with production sites
- ▨ Main markets
- ▲ Starch plants
- ▲ Bioethanol plants

SUGAR

7 sugar beet plants
2 raw sugar refineries (& Instantina)

- Countries with plants
- ▨ Other markets
- Beet sugar plants
- Raw sugar refinery
- Distribution centre
- * Also with refining activities

GROWTH BY STRATEGY

AGRANA
SHARE

AGRANA

DIVIDEND PROPOSAL FOR 2018|19

- Ad-hoc announcement as of 9 April 2019
- Management Board of AGRANA Beteiligungs-AG decided to propose a **dividend** payout in the amount of **€ 1.00 per share** for the 2018|19 financial year (dividend for 2017|18: € 1.125 per share) to the 32nd Annual General Meeting to be held on 5 July 2019
- AGRANA thereby demonstrates its continuing **commitment to a predictable, reliable and transparent dividend policy** that is geared to continuity
- Dividends are based on the result as well as on the Group's cash flow and debt situation, while at the same time maintaining a solid balance sheet structure

MOST IMPORTANT PROJECTS IN THE GROUP

INVESTMENT OVERVIEW

2018|19

FRUIT

- Key projects: construction of the new, second fruit preparations plant in China and a new carrot juice concentrate production line in Hungary

STARCH

- Expansion of wheat starch plant in Pischelsdorf, Austria
- Increase of potato processing capacity through installation of a new potato starch dryer in Gmünd, Austria
- Installation of a potato fibre dryer in Gmünd

SUGAR

- Installation of an organic sugar line with a big-bag filling station and rail loading facility in Tulln, Austria
- Project start for construction of a warehouse for finished product in Buzău, Romania

GROUP

SEGMENT

FRUIT

FRUIT SEGMENT - BUSINESS MODEL

FRUIT PREPARATIONS

- Based on mostly frozen fruits
- Tailor-made customer products (several thousand recipes worldwide)
- Customers: dairy, bakery and ice cream industry
- Shelf life of the fruit preparation ~6 weeks -> necessity to produce regionally

FRUIT JUICE CONCENTRATES

- Based on fresh fruits
- Production in the growing area of the fruits (water content and quality of the fruits don't allow far transports)
- Customers: bottling industry
- Shelf life of fruit juice concentrates ~2 years -> can be shipped around the world

FRUIT PREPARATION – WHAT IS IT ABOUT?

FRUIT

... most important ingredient of fruit preparations

- Frozen (IQF or block)
- Aseptic
- Purees
- Concentrates

SUGAR

... sweetens and supports taste and durability

- Crystal sugar
- Liquid sugar (syrup)
- Other sweeteners

FRUIT PREPARATIONS

optional flavours and colours for an even fruitier taste and an intense colour

THICKENERS

- create a good mouth-feel and prevent emulsions
- Pectins
- Starch
- Guar flour...

FRUIT SEGMENT

MARKET POSITION

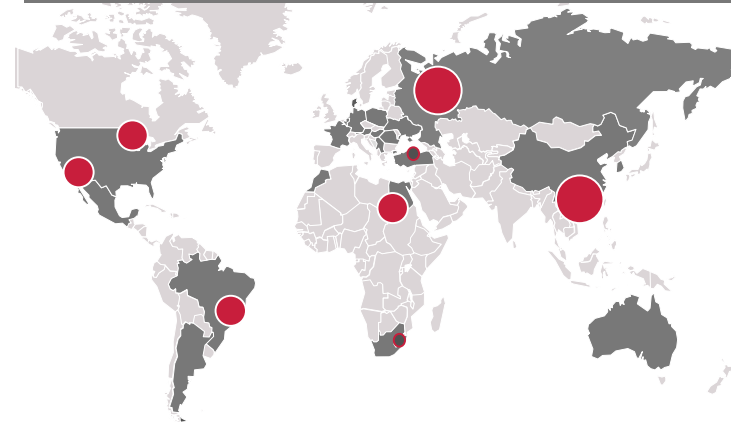

FRUIT PREPARATIONS

- World Market Leader in Fruit preparations global market share > 30%
- The emerging markets are overall showing good market growth rates, while the market's sales volumes of fruit preparations in Europe and the US are stagnating at a high absolute level

FRUIT JUICE CONCENTRATES

- Largest producer of fruit juice concentrates in Europe (AUSTRIA JUICE)
- In general, optimisation measures taken in previous years show their positive effects
- Customer portfolio extended and new markets

28 FRUIT PREPARATION PLANTS &
15 FRUIT JUICE CONCENTRATE PLANTS

■ Countries with production sites
● Potential growth regions

FRUIT SEGMENT

REVENUE

€m

REVENUE slightly up at € 1,179.1 million

- Fruit preparations: revenue stagnated despite higher sales volumes; reason lay mainly in negative FX effects, particularly in Argentina, Turkey, Russia, Mexico and the USA
- Fruit juice concentrates: revenue rose as a result of high apple juice concentrate prices

EBIT

€m

EBIT by 2.2% higher than in prior year

- Fruit preparations: mainly currency-related deterioration in earnings (as numerous local currencies weakened against the euro, in some cases sharply)
- Fruit juice concentrates: EBIT grew significantly; due especially to improved contribution margins of apple juice concentrate, and also to a continued good performance in beverage bases

FRUIT SEGMENT

Fruit preparations

- The consumption markets for fruited yoghurt in Western Europe, North America and parts of Latin America continue to show negative development
- Global historic CAGR (5y) of -1%; higher consumption of plain yoghurt
- **Growth markets** in Asia (China), Eastern Europe and NMEA (low per capita consumption) continue to grow
- Consumer trends remain on **naturalness, sustainability, health, pleasure and convenience**
- Diversification in non-dairy sectors (food service, ice-cream, bakery) offer new market opportunities globally

Fruit juice concentrates

- In Europe **above-average apple crop in 2018** (especially record harvest in Poland) led to significant **reduction in the prices of apples and apple juice concentrate** compared to previous year (2017)
- Low European prices coupled with reduced production volumes from China created **good sales opportunity for European product in the USA**
- Strong outflow of European apple juice concentrate to the USA, combined with steady demand from European consumers, pushed up prices in the course of the harvest

PROJECTS IN THE 2018|19 FY

2ND FP PRODUCTION SITE IN CHINA

- **Second fruit preparations plant** in **Changzhou** (Jiangsu region)
- Official opening ceremony on 18 March 2019
- Total investment: **€ 22 million**
- Planned production capacity: **30,000 tonnes**

China

AF Dachang
Beijing

Customer locations

New site
Changzhou (population of 3.5 million)
150 km north-west from

Shanghai

- China is the **world's largest yoghurt market** with strongest growth
- **Yoghurt consumption** per capita: 6.8 kg (EU: 12.5 kg), consumption should grow by 7.9% p.a. until 2023 (Euromonitor)

PROJECTS IN THE 2018|19 FY

AGRANA ACQUIRED STAKE IN ALGERIAN FRUIT PREPARATIONS PRODUCER ELAFRUIT SPA

- AGRANA has **extended** its **presence** in the **North-African market** by **acquiring 49%** of the shares in ELAFRUIT SPA (now: SPA AGRANA Fruit Algeria), an Algerian producer of fruit preparations
- Located in Akbou, around 200 km east of Algiers, this company with a workforce of around 100 employees generated revenues of approximately € 7 million in its 2018 financial year
- Besides producing **standard fruit preparations** for yoghurts and ice creams, SPA AGRANA Fruit Algeria also makes **fruit purees** and **bases for the beverage industry**

SEGMENT

STARCH

STARCH SEGMENT

MARKET POSITION

- Austrian production sites:
 - **Potato** starch factory in Gmünd
 - **Corn** starch plant in Aschach
 - **Wheat** starch & bioethanol plant in Pischelsdorf
- Operational management and coordination of international holdings in Hungary and Romania
- The bioethanol business also forms part of the Starch segment
- Focus on **highly refined speciality products**
- **Innovative, customer-driven products** supported by application advice
- **Leading position in organic and in GMO-free** starches for the food industry

STARCH

5 starch plants
(incl. 2 bioethanol plants)

STARCH SEGMENT

SPECIALISATION STRATEGY

FOOD

- Growth in products from special raw materials (market leadership)
- Growth in starch derivatives for fruit preparations
- Growth in „high care“-starches

NON-FOOD

- Growth in (special applications for) paper, textile & cardboard industry
- Innovation and market leadership in
 - Special applications for construction industry
 - Adhesive (sack adhesive)
- Growth in cosmetics industry

FINANCIAL RESULTS FOR 2018|19

STARCH SEGMENT

REVENUE

€m

REVENUE at € 762.7 m slightly above prior year

- Revenue growth: Native and modified starches
- Revenue decreases occurred in saccharification products (weak EU sugar market environment)
- Bioethanol revenue decline amid high price volatility (Platts quotations)

EBIT

€m

EBIT significantly down to € 51.2 million

- Most of this reduction was due to the significantly lower market prices for bioethanol and sweeteners
- Energy price increases and the overall higher grain prices weigh on earnings
- Decrease in profit contribution from the equity-accounted HUNGRANA facility to € 16.2 million, versus € 30.5 million in p/y

MARKET ENVIRONMENT IN 2018|19

STARCH SEGMENT

- **Difficult market** setting for **sugar** -> huge **impact on starch sweetener products**
 - Low sugar prices with direct downward **price pressure on isoglucose**
 - Intense **competition** among starch companies
- **Sales volumes** of **native and modified starches** into food industry were **stable**
- Upside **driver in non-food starches** -> lasting high demand from the **paper and corrugated board** industry
- **Bioethanol: volatility** in the European market for bioethanol **remained at a significant level** in the 2018|19 FY
 - H1 2018|19: ethanol quotations were below the year 2017/18 due to greater supply in the EU and higher imports from overseas coincided with only moderately increased demand
 - Since October, ethanol quotations regained stability at a higher level -> especially due to capacity reductions in the UK, where one ethanol plant was closed and another temporarily halted production
- **By-products:** prices for high-protein products (corn gluten, vital wheat gluten and potato protein) remained stable overall

PROJECTS IN THE 2018|19 FY

INCREASED POTATO PROCESSING

- Gmünd potato starch factory (Austria)
- Construction of a new **potato starch dryer**
- Expansion of **daily processing capacity** from 1,600 to 2,000 tonnes
- Refining of **potato pulp** to a food ingredient, water binder and fiber
- **Investment volume** (by 2020): € 40 million

2018|19 FY

10 June 2019:
177.3 EUR/t

10 June 2019:
174.8 EUR/t

WORLD CEREAL PRODUCTION & CONSUMPTION

million tonnes

e...estimate f...forecast p...projection
Period: July - June

ISOGLUCOSE MARKET IN THE EU

As of 1st of October 2017 also the quotas for isoglucose were abolished, which means new **growth potential** for AGRANA.

Before, AGRANA held 125,000 tonnes (->> HUNGRANA: 250,000 tonnes).

Former isoglucose quota of the EU-28 $\sim < 5\%$ of sugar consumption

Higher market share of isoglucose in the mid and longer term expected.

AGRANA BIOETHANOL ACTIVITIES

PISCHELSDORF (Austria)

- Total investment: € 125 million
- Capacity: up to 240,000m³ (= 190,000 tonnes)
- Production start: June 2008
- Raw material base: wheat, corn and sugar beet thick juice*
- By-products: up to 190,000 tonnes of ActiProt© (animal feed)

HUNGRANA (Hungary)

- Investment volume: ~ € 100 m (50% share held by AGRANA: ~ € 50 m)
 - for grind increase from 1,500 to 3,000 tonnes/day
 - for isoglucose capacity increase due to quota increase
 - for bioethanol expansion
- Capacity: up to 187,000 m³
- Conclusion of expansion programme: July 2008
- Raw material base: corn

* in the meantime also B+C starches

1 JANUARY 2008 – 10 JUNE 2019 (EUR)

ETHANOL AND PETROL PRICES

SEGMENT

SUGAR

MARKET STRUCTURE SINCE OCTOBER 2017

AGRANA FY always influenced by two sugar marketing years:

- Production volumes with and without quota
- Prices from quota and post quota time
- EU's structural change from net importer to net exporter

Border protection: unchanged

Import duty from non-preferential countries
Preferential agreements with LDC-/ACP- and other countries

BENEFIT FROM THE STRONG MARKET POSITION IN CEE AND SEE

AGRANA SUGAR AFTER THE END OF QUOTAS

- CEE area will continue to be a “sugar deficit region” (AGRANA is located in these main deficit areas)
 - Complexity in logistics and costs from Western Europe are somehow a protection of intra-EU imports
 - Defend and extend existing market share in CEE
- AGRANA has established **long-term relationships** with key sugar producers in the LDCs and ACPs (duty-free-imports)
- Uncertain market development requires **continuous flexibility**
- High volatility** expected

MARKET POSITION

Austria	#1
Hungary	#1
Czech Republic	#2
Slovakia	#2
Romania	n/a
Bosnia and Herzegovina	n/a
Bulgaria	n/a

SUGAR SEGMENT

REVENUE

€m

REVENUE down to € 501.2 million

- Significant year-on-year reduction in sugar sales prices
- Lower volumes of sugar sold (especially exports and non-food)
- Volume growth in AGRANA's core retail and industry markets
- Revenue from by-products decreased due to lower dried beet pulp as a result of the crop 2018

EBIT

€m

Negative EBIT

- Main factor lower sales prices compared to prior year
- Write-down on sugar inventories
- Production costs increased due to the poor beet quality of the 2018 crop (drought conditions) and acreage reduction in spring 2018 -> idle-capacity costs of about € 13.2 million

SUGAR SEGMENT

■ World sugar market

- **Downward trend in the world sugar market price continued** in the first seven months of the 2018|19 FY
 - Anticipation of a significant surplus in the world sugar balance
 - World market quotations dropped to a 9y low for white sugar (Aug. 2018) and to a 10y low for raw sugar (Sept. 2018)
- Since October the market has **rallied again somewhat** from its lows
 - Lower crop results in Brazil due to higher ethanol production
 - Effects of the dry weather in Europe on the 2018 campaign
 - Dynamics in the foreign exchange and oil markets

■ EU sugar market

- Sugar prices continued to drop in the course of the financial year
- EU sugar price reporting: in January 2019 the EU sugar price was at € 312 per tonne (January 2018: € 371 per tonne) and thus about 23% below the EU's regulatory reference threshold of € 404 per tonne
- **Effects of dry wetter** in major crop areas and **reduced availability of sugar** in deficit areas will potentially effect the further price development
- Outlook: EU sugar production estimated at 18.6 million tonnes (F.O. Licht)

2018|19

CONSOLIDATED FINANCIAL STATEMENTS

CONSOLIDATED INCOME STATEMENT

€m (condensed)	2018 19	2017 18	Change
Revenue	2,443.0	2,566.3	-4.8%
EBITDA ¹	147.7	254.2	-41.9%
Operating profit before except. items and results of equity-accounted JV	51.1	164.1	-68.9%
Share of results of equity-accounted JV	12.2	29.4	-58.5%
Exceptional items	3.3	(2.9)	>+100%
EBIT	66.6	190.6	-65.1%
EBIT margin	2.7%	7.4%	-4.7pp
Net financial items	(15.4)	(14.5)	-6.2%
Profit before tax	51.2	176.2	-70.9%
Income tax expense	(20.9)	(33.5)	+37.6%
Profit for the period	30.4	142.6	-78.7%
Attributable to shareholders of the parent	25.4	140.1	-81.9%
Earnings per share	€ 0.41²	€ 2.24 ²	-81.7%

¹ EBITDA represents operating profit before exceptional items, results of equity-accounted joint ventures, and operating depreciation and amortisation.

² After the four-for-one stock split performed in July 2018. The value is thus based on the new number of shares out-standing at 28 February 2019, which was 62,488,976.

EXCEPTIONAL ITEMS IN THE SUGAR SEGMENT

€m	2018 19	2017 18	Change
Exceptional items	3.3	(2.9)	>+100%

- Exceptional items in 2018|19, which on balance amounted to **net exceptional income of € 3.3 million**, consisted largely of **tax refunds in Romania of € 5.6 million** and **restructuring expenses of € 1.8 million**
- Prior year's net exceptional items expense of € 2.9 million resulted largely from restructuring costs of € 4.1 million, which were partly offset by one-off income of € 1.9 million from the refunding of excess amounts of sugar production levies collected by the EU in the 1999|00 and 2000|01 SMYs

ANALYSIS OF NET FINANCIAL ITEMS

€m	2018 19	2017 18	Change
Net interest expense	(5.5)	(7.8)	+29.5%
Currency translation differences	(8.0)	(3.8)	>-100%
Share of results of non-consolidated subsidiaries and outside companies	0.0	0.0	-
Other financial items	(1.9)	(2.9)	+34.5%
Total	(15.4)	(14.5)	-6.2%

- Prior year's optimisation of the credit and interest rate structure led to a further **improvement of € 2.3 million in net interest expense**
- **Currency translation differences deteriorated** by about **€ 4.1 million**, due primarily to negative movements in foreign currency financings in Argentina, Brazil, China, Mexico and Romania (euro and US dollar financings)
- As a result of lower ancillary expenses, **other financial items improved by € 0.9 million**

TAX RATE

€m	2018 19	2017 18	Change
Profit before tax	51.2	176.2	-70.9%
Income tax expense	(20.9)	(33.5)	+37.6%
Tax rate	40.7%	19.0%	+21.7pp

Equity ratio	59.0%	61.7%	-2.7pp
Net debt	322.2	232.5	+38.6%
Gearing	22.9%	16.0%	+6.9pp

DIVIDEND AND EARNINGS PER SHARE

Dividend yield (based on the closing share price at the last balance sheet date): **5.7%**

**EPS and DPS adjusted; after the four-for-one stock split performed in July 2018, all EPS and DPS values are based on the new number of shares out-standing at 28 February 2019, which was 62,488,976.

2019|20

OUTLOOK

(INCL. CURRENT PROJECTS)

CURRENT PROJECTS

MANUFACTURE OF CRYSTALLINE BETAINES

- Production of **crystalline betaine** under a JV between AGRANA and The Amalgamated Sugar Company (USA)
- AGRANA has been processing sugar beet molasses obtained during the production of sugar at its **Tulln site in Austria** to make liquid betaine already since 2015
- New plant, with a production capacity of around 8,500 metric tons of crystalline betaine per year, will make Tulln the **third manufacturing site worldwide** where premium-quality, natural crystalline betaine is produced
- Betaine produced **from sugar beet molasses** has **numerous practical applications**:
 - In livestock sector as a constituent of animal feedstuffs
 - In food supplements and sports drinks
 - Due to its osmoregulatory properties, betaine is also used in cosmetic products
- Construction work will take approximately a year
- Investment: approx. **€ 40 million**

CURRENT PROJECTS

WHEAT STARCH CAPACITY INCREASE

- **Doubling the production capacity of the wheat starch factory** in Pischelsdorf|Austria
- Total investment: **€ 102 million**
- Construction work started in early 2018 and to **commission the new facility** by the **end of 2019 CY**
- Important step in terms of sustainably **consolidating AGRANA's position in the starch market**
- Expansion project will create **45 new jobs**
- Expansion meets the **increasing demand**, particularly from the **paper industry** -> high proportion of recycled paper and rising demand for packaging

	Processed raw materials (to)	Investment
Ethanol plant:	621,000	€ ~130 million (until 2008)
Wheat starch plant I:	196,000	€ ~70 million (until 2013)
Wheat starch plant II:	215,000	€ ~100 million (until 2019)
TOTAL:	1,032,000	€ ~300 million (until 2019)

TARGET:

1 million tonnes
processing capacity

~ 3,000 to per day

AGRANA GROUP

OUTLOOK FOR 2019|20

AGRANA Group

EBIT 2019 | 20 

Revenue 2019 | 20 

- Despite the **continuing substantial challenges in the Sugar segment**, the Group's **operating profit (EBIT)** is expected to **increase significantly** (between +10% and +50%) in the 2019|20 FY
- **Revenue** is projected to show **moderate growth**
- Total **investment** across the three business segments in 2019|20 FY, at approximately **€ 143 million**, is to significantly exceed the budgeted depreciation of about € 108 million

AGRANA SEGMENTS

OUTLOOK FOR 2019|20

FRUIT

Revenue ↑
EBIT ↑↑

- **Fruit segment:** AGRANA expects the 2019|20 FY to bring **growth in revenue and EBIT**
 - Fruit preparations: positive revenue trend is predicted in all business areas, driven by rising sales volumes; EBIT will reflect the volume and margin growth, resulting in a significant earnings improvement yoy; especially the South America, North America, Europe and Mexico regions are expected to contribute to this uptrend
 - Fruit juice concentrates: revenue and EBIT are projected this FY to be steady on a high prior year level

STARCH

Revenue ↑
EBIT →

- **Starch segment: moderate increase in revenue** is forecasted for 2019|20; no major recovery in prices is expected for starch-based saccharification products; specialty products such as infant formula, organic and GMO-free products should continue to generate further positive impetus
- Assuming an average grain harvest in 2019, **EBIT is expected to be constant**

SUGAR

Revenue ↗
EBIT ↑

- **Sugar segment:** AGRANA is projecting still a **low revenue** in expectation of a continued challenging sugar market environment
- Ongoing cost reduction programmes will be able to soften the margin reduction to some extent; **EBIT is thus expected to remain negative in the 2019|20 FY**
