

NATURALLY CREAM BLUSH with AGENAFLO 9050

“developed & formulated exclusively by Azelis UK Life Sciences Ltd.”

A simple contouring blusher balm.

INSIDE THE FORMULATION:

VEGELINE 65

A 100% vegetable alternative to petrolatum with similar texturing effects but improved properties for cosmetic use. It has a moisture retaining effect, preventing the TEWL (trans epidermal water loss), soft during use, it has sensorial properties and smooth after-feel like vegetable butters. It has a water resistant function offered by the original blend of castor oil and carnauba wax. It is a thickening agent for the oily phase of the formulation, comedogenic. VEGELINE® 65: drop melting point 62°C – 72°C.

AGENAFLO 9050

A hydrophobically modified waxy corn starch. It is a white / off white powder which gives a distinctive powdery feel to a variety of formulation types.

COLORONA ORIENTAL BEIGE

Pearlescent pigment based on iron oxide suitable for use in all types of colour cosmetics. Can also be incorporated into toothpastes and a wide range of skincare, haircare and toiletry products to give a high lustre, eye-catching look.
