

FABULOUS CREAM GEL

with AGENAJEL 20.306

"Formulated and developed by Azelis (ref. 240602.03)"

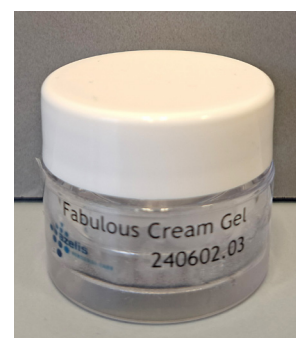

This formulation is a creamy gel that is smooth and fresh on application. The combination of starch and hydrocolloids gives a unique texture while stabilizing the light oily phase. AGENAJEL 20.306, a highly natural, cold-water swellable starch, provide creaminess and can also help to increase viscosity in synergy with cellulose fiber.
