

## PET DRY SHAMPOO MOUSSE with RICE PO<sub>4</sub> NATURAL

Formulated and developed by Tunap GmbH & Co KG

A dry shampoo mousse in aerosol form is an ideal way to cleanse both the hair and the coat of animals that don't like a water or a shower or the dust and the noise of normal dry shampoo aerosol.

| Phase | Ingredients                  | INCI                           | % w/w            | Supplier      |
|-------|------------------------------|--------------------------------|------------------|---------------|
|       |                              | Aqua                           | 50 - 60          |               |
|       |                              | Alcohol denat.                 | 25 - 35          |               |
