

# SOFT TOUCH RESCUE BALM

with CORN PO4 PH"B"

## COLD PROCESSED BALM

"Formulated and developed by Azelis (ref. 24016546)"

Soft Touch Rescue Balm is a nourishing formula designed to help restore and protect skin, especially in harsh conditions. This rich balm melts into the skin, forming a barrier against winter elements.

The formula includes Rootness Mood+, an active ingredient from the roots of *Sanguisorba officinalis* (great burnet), cultivated with eco-friendly Plant Milking technology. Rootness Mood+ works with skin photoreceptors to mimic sunlight's revitalizing effects, supporting skin radiance and well-being by naturally encouraging serotonin and melatonin production.

The balm's soft texture is achieved with Olve'Care Shea Oil, which hydrates and softens, Parafol 12 RSPO-MB, a sustainable emollient for a lighter feel, and CORN PO4 PH"B" for extra softness.

Ingredients	INCI-Name	% w/w	Supplier
<b>Phase A</b>			
Olve'Care® Shea Oil	Butyrospermum Parkii Oil	20,00	Olvea
Parafol™ 12 RSPO-MB	Dodecane	14,35	Sasol
Versagel® SQ_1600 T	Squalane, Ethylene/ Propylene/Styrene Copolymer, Butylene/Ethylene/ Styrene Copolymer, Pentaerythrityl Tetra-di-t-butyl Hydroxyhydrocinnamate	45,00	Calumet
Rootness® Mood+	Propanediol, Sanguisorba Officinalis Root Extract	2,00	Clariant
Deodorised Organic Virgin Sesame Oil	Sesamum Indicum Seed Oil	5,00	Olvea
Geogard® Boost PGC	Propylene Glycol Caprylate	1,00	Arxada
<b>Phase B</b>			
<b>CORN PO4 PH"B"</b>	<b>Distarch Phosphate</b>	<b>10,00</b>	<b>AGRANA</b>
<b>Phase C</b>			
Colorona® Light Blue	Mica, C.I.77891, C.I.77510	0,05	Merck
Ronaflair® White Sapphire	Synthetic Sapphire	2,00	Merck
Ronastar® Blue Lights	Alumina, C.I. 77891, Silica, Tin Oxide	0,50	Merck
Adriatic Bliss 928	Parfum	0,10	IFF

### SPECIFICATION:

**Appearance:** Pale blue pearly viscous liquid  
**pH-value:** N.A.  
**Viscosity:** N.A.  
**Stability:** 2 Months @ 4, 20, 40, 50°C and Cycle

### PROCEDURE:

Premix phase A, mixing until homogenous between each addition.  
 Add phase B to phase A, mixing until homogenous.  
 Add phase C to the batch, mixing until homogenous between each addition.
